

The Natural Gas Act (H.R. 1380) that Boone Pickens has been stumping for over 2 years, has been finally introduced to the House of Representatives. Converting the 18 wheel truck fleet to Natural Gas will cut foreign oil imports by 50%. [NAT GAS Act has been introduced in the U.S. House of Representatives](#)

With the current gas prices and Middle East instability, Boone's plan is gaining support and momentum in Congress. The debate is ramping up in Congress and the media; <http://www.pickensplan.com/boonecam/2011/09/23/a-great-day-for-natural-gas-%E2%80%93-a-great-day-for-america/>
